

THREE AUSTRIAN MINISTERS REPORTED OUT

HALF HUNDRED DIE IN BLASTS IN MINE AND POWDER FACTORY

THIRTY-ONE DIE IN BLAST TUESDAY IN DUPONT PLANT

Dead in Explosions in Plants of Firm Since August, 1914 is Raised to 38

GERMAN SYMPATHIZERS NAMED

Warning Was Posted to Workmen to Quit Plant Before First of Year

WILMINGTON, Del., Dec. 1.—Two small fires, one in the Hagley yard and the other at the Carney's Point, N. J., plant of the Dupont Powder company, raked the nerves of Dupont officials today while they were directing the investigation into the explosion that wrecked a packing house here yesterday with a loss of thirty lives.

Officials publicly scouted the idea that either blaze had any connection with yesterday's tragedy. They admitted, however, that the cause of the explosion is yet a mystery, though investigations are under way.

WILMINGTON, Del., Dec. 1.—Thirty-one men were killed yesterday afternoon when a packing-house in the yard of the Dupont Powder company was blown up.

A double guard was placed today about all of the mills of the Dupont Powder company while state and federal officials joined in an investigation of the explosion.

While the investigation was still in progress, fire in a blending mill of the Dupont company works at Carney's Point, N. J., did slight damage today. No one was hurt.

Warned that other explosions may occur, the management made every effort today to prevent a recurrence of the disaster.

Since August, 1914, eight mysterious explosions have occurred in Dupont plants. Thirty-eight persons have been killed and nearly a hundred injured.

Workmen Warned
A warning to workmen to quit the Dupont mills by January 1, was tacked on trees and fences near the yards and even within the yards of the company, it was learned today.

Physicians said early today that six of the injured in yesterday's explosion probably will die.

Identification of the bodies seems impossible today. Of the twenty-six men in the packing-house where the explosion occurred, not enough of any of them was left for identification with the exception of Allan A. Thaxter, the foreman, of Portland, Me.

Outside Forces Blamed
A huge crater where the powder packing-house once stood, scores of shattered windows, and the mangled bodies of victims are all officials have to view today in making their investigation. Inquiries are said to have been received from the French and British embassies in Washington as to the possible cause of the explosion, but officials are unable to give a satisfactory reply as yet.

Heads of the company say they had not noticed warnings to workmen posted about the plant, but in view of persistent reports to this effect from other sources, police today worked on the theory that the explosion may have been caused by pro-German agents.

In connection with the reported warnings to German and Austrian employees to quit work by January 1, it is said that the company has refused to employ Germans or Austrians in its plants for some time.

The general opinion among powder mill workmen today is that the explosion was caused by some outside agency inasmuch as there generally is nothing to cause such a disaster in the packing-house.

Secret Service to Act
WASHINGTON, Dec. 1.—A. Bruce Bielaki, chief of the department of Justice secret service, said today he is considering an investigation of the Dupont powder mill explosion at Wilmington. Bielaki is anxious, however, to see the preliminary report of the Delaware authorities first.

MALPRACTICE SUIT GIVEN TO JURY IN CIRCUIT COURT

Morning Occupied by Arguments of Counsel; Judge Orders Special Verdict

HERPES ZOSTER DEFENSE THEORY

Asserted That Burns on Leg Were Caused by Skin Disease and Not Carelessness

The malpractice case of George Morrison against Drs. W. A. Henke, W. B. Mast and the La Crosse Hospital association went to the jury at 11:45 o'clock this morning, when Senator Otto Bosshard completed the summing up of the case in behalf of the plaintiff, a Vernon county farmer who is suing to recover damages for injuries alleged to have been received at the time of an operation for appendicitis at the hospital. Damages of \$5,000 are sought.

All testimony introduced in the trial was taken before recess yesterday afternoon, and the time this morning was given over to arguments of counsel.

Bosshard Ridicules Theory

In his plea to the jury this morning, Mr. Bosshard ridiculed the suggestion of the defense, that the sores on Morrison's right leg might have been caused by the overgrowth of blood in the blood vessels of the leg, and causing them to heat and form blisters. Senator Bosshard declared that the theory that the sores were caused from within the man's person, brought about by his debilitated condition, as the defense contended, was a last ditch effort to escape the consequences of carelessness.

Dr. G. S. Wakefield of West Salem, who healed the affected leg after seven months' treatment, said that in his opinion the sores were not caused by Herpes Zoster, as testified by Dr. A. A. Maurer of La Crosse yesterday afternoon. Dr. Wakefield said that in his opinion the sores were not caused from internal sources.

Miss Ella Ingwersen, superintendent of the hospital, and four nurses testified yesterday.

Hestimony was introduced to show that the bed in which Mr. Morrison was placed was but three feet wide, and that a hot water bottle, filled forty-five minutes before, was placed in the bed, on the right side and near the foot. It was alleged that after Morrison left the hospital for the home of relatives on the north side, when the pain in his leg became acute, Dr. Henke and Miss Ingwersen invited him to return to the hospital for free treatment. This, counsel for the plaintiff contended, indicated the defendants were conscious of fault.

The case is peculiarly interesting in that it involves the question of the liability of a charitable institution, the La Crosse hospital.

Shows Scars to Jury

In court yesterday Morrison bared his right leg to the jury and counsel, showing scars he said were the result of the blisters. He maintains that he is permanently injured in

RIVER CONVENTION IS INVITED HERE FOR 1916 MEETING

MacWillie's Letter Is Read to 200 Delegates at Quincy This Afternoon When Gathering Opens

TORRANCE SPEAKS OF TERMINALS

La Crosse Vice President of the Organization One of Chief Speakers Today

The Upper Mississippi River Improvement association was invited to hold its 1916 convention in La Crosse this afternoon, when a letter from President D. W. MacWillie of the Manufacturers and Jobbers club was read to the two hundred delegates at the gathering which convened today at Quincy, Ill. Vice President William Torrance of La Crosse was one of the chief speakers at the convention today. He spoke of the campaign for terminal facilities in river towns.

River Revival Vital

President Thomas Wilkinson opened the convention with a speech in which he declared the rehabilitation of the river is the most vital matter now before the people of the central valleys. The 200 delegates concurred in his view that not only the cities along the banks of the Mississippi will profit by the revival of river transportation under modern methods, but that the effect will be as wide as the valley from the Alleghenies to the Rockies.

During the two days of the convention, every effort will be made to carry forward the movement to make the river easily navigable from St. Paul to the Delta and to encourage those who are leaders in building and equipping river craft of the self-propelled barge type for freight and small passenger traffic.

La Crosse's Invitation

The letter inviting the convention to La Crosse next year was as follows:

"Thomas Wilkinson, president, and member of the Upper Mississippi River Improvement association.

Denied the privilege of being with you upon the occasion of this annual convention of our association, I still crave the privilege of addressing you upon a subject that is near to my heart.

We who see the great Mississippi flow by in idleness, we who are associated for the purpose of directing our great national waterways into channels of industry that they may contribute as nature intended for the inspiration that shall move our cities to assume their honorable obligations in relation to this worthy undertaking.

The men of La Crosse have seen with satisfaction a growing appreciation of the inland waterways enterprise taking hold of our people. We have made a fine harbor, we have developed and await the rapid completion of a riverside park system of which the beauty rivals that of any

LIQUID FIRE WAS PROPOSED TO KILL PRESIDENT WILSON

Chemist Held in Cleveland for Forgery Says Proposition Was Made to Him

MADE BY "HIGH OFFICIALS"

He Says He Was Approached to Sprinkle Liquid Fire Over Wilson and Garrison

CLEVELAND, O., Dec. 1.—An attempt on the life of President Wilson and Secretary of War Garrison was proposed with liquid fire, according to information alleged to have been obtained by County Prosecutor Cyrus Locher, from E. W. Ritter, chemist under arrest here, it was learned this afternoon. A court stenographer's record purporting to be that taken while Locher was examining Ritter stated that the plan was suggested by "two men, high in official life."

Dr. Ritter (or Rettigi) held on a fraudulent check charge, denied he had made such a statement to Locher.

Charles DeWoody, special agent of the department of justice, who has been trailing Ritter for a year, swore to the warrant served on the chemist. DeWoody has been investigating bomb plots.

Ritter admits he invented the "original liquid fire."

This is part of the statement Locher is alleged to have secured from Ritter:

"Two men, high in official life, came to me and proposed that my liquid fire be used to sprinkle on President Wilson and Secretary of War Garrison."

"No! No! I exclaimed. That would be terrible. I would never do it."

"Well," said the two men, let us not talk about it."

This question was then asked Ritter: "Why wasn't it proposed to shoot the president?"

"The men said shooting would mean arrest. With liquid fire, so you shoot it from a rubber ball upon a person's clothes and go away. In a few minutes, poof. The liquid fire flames."

This alleged record was ordered by DeWoody, who is to forward it to Washington.

FAIL NOT DROWNING BLAME

QUINCY, Ill., Dec. 1.—Death from injuries caused by the fall and not the drowning, was the verdict of the coroner's jury called to investigate the death of the two trainmen who lost their lives Saturday night when a Chicago, Burlington & Quincy, St. Louis to St. Paul, train went into an open draw. Responsibility for the accident was not fixed.

Village of Argyle Turns Out 500 People to Hear the Senior Senator Flay Philipp Administration

STALWART GOVERNMENT COSTLY

Expenses of State Will Have Gone Up a Million Dollars by End of Fiscal Year Declares Senator

ARGYLE, Wis., Dec. 1.—Senator Robert M. La Follette addressed a crowd of 500 at Tifton hall here this noon. He was tendered the most enthusiastic reception upon his appearance upon the platform ever accorded a speaker in this village. Senator La Follette lived here as a boy and his audience was made up of men, many of whom had driven several miles to get here, who have followed him throughout his career.

Philipp Rule Costly

Senator La Follette spoke on the "cost of government." He was heartily applauded by the overflow audience.

"The disbursements of a government is the only criterion by which the cost of government can be judged," said Senator La Follette. "Appropriations expended do not become costs of government. The cost of the Philipp administration for the fiscal year ending July 1, 1916, will be more than \$17,000,000 and will be in excess of \$1,000,000 over the last year of the previous administration."

Charges Juggling

Senator La Follette repeated the statement made at Richland Center that the state finance had been juggled to conceal the facts. He declared that taxes heretofore paid by the state had been shifted upon the counties and towns in a despicable attempt to make it appear that the present administration had reduced the cost of government.

Senator La Follette spent the morning in renewing acquaintances in the village. He visited all of the old landmarks with which he was familiar as a boy and declared that he had spent one of the most enjoyable days of his life. He was the guest of Seymour Waddington at lunch.

PRESIDENT SAYS "PORK BAR'L" IS SUFFICIENTLY FULL

He Says Rivers and Harbors Appropriations Must Be Cut to the Bone

WASHINGTON, Dec. 1.—President Wilson will not sanction any new rivers and harbors legislation, he informed Representative Sparkman of Florida, chairman of the house committee on rivers and harbors, today. These appropriations must be cut to the bone, the president said.

Sparkman had called to explain what was desired by his committee. He said that \$46,000,000 was needed to complete work already begun. Last year the appropriation was cut to \$30,000,000 by congress and it is understood this year the administration forces will urge even further reduction.

OPINION IS THEY WERE OVER-RULED IN FAVORING MOVE

Ministers of Finance, Interior and Commerce Those Affected by Shake-up

SERIOUS SITUATION MIRRORED?

The Resignations Hint at Increasing Difficulties of the Government at Home

AMSTERDAM, Dec. 1.—The emperor of Austria today accepted the resignation of his ministers of finance, the interior and commerce, according to Vienna advices.

The three resignations naturally are associated in diplomatic comment, with reports that Austrian leaders have been discussing a separate peace for their country.

The general assumption is that they favored such a step and were over-ruled.

The finance minister is thought likely to have surrendered his portfolio because unable to raise money to continue the struggle. The interior minister is presumed to have retired through inability to organize food distribution satisfactorily and perhaps because he could not cope without breaks of popular discontent. The commerce minister, it is suggested, undoubtedly was called into consultation with the heads of both other departments in connection with the country's industries. From the fact that he resigned it is taken for granted that he agreed with them.

These were surmises. Vienna dispatches offered no explanation. It is agreed that their resignations hint at an increasingly serious situation in Austria-Hungary.

The retiring ministers were: Baron Engel von Mainfelden, minister of finance.

Dr. Karl Heinold D'Udinski, minister of the interior.

Dr. Rudolph Chiechster von Bonnet, minister of commerce.

Their posts were filled by Governor Ritter von Leth of the postal savings bank; President Prince Hohenlohe Schillinguerst, and Director von Spitzmuller of the Kredit Anstalt.

WASHINGTON, Dec. 1.—That wholesale grand jury indictments at San Francisco probably will follow the arrest there of C. C. Crowley, charged with violation of the neutrality laws, was learned today.

Buenz Testifies

NEW YORK, Dec. 1.—Dr. Karl Buenz, American, managing director of the Hamburg-American lines, testified in his own defense today that he had directed scrupulous observance of all American laws in clearing vessels from American ports to furnish supplies to German warships.

Buenz denied that to evade customs house authorities he directed the supply ships to state false destinations in their clearance papers.

"We wanted our ships to go to their stated destinations even if they were emptied of their cargoes by warships met at sea," said Buenz.

The case probably will reach the jury late tomorrow.

The Treatment of Influenza or La Grippe

It is quite refreshing these days to read of a clearly defined treatment for influenza or La Grippe. In an article in the "Lancet-Clinic," Dr. James Bell, of New York City, says he is convinced that too much medication is both unnecessary and injurious. When called to a case of La Grippe, the patient is usually seen when the fever is present, as the chill which occasionally usher in the disease, has generally passed away. Dr. Bell then orders that the bowels be opened freely with salts. "Antacids" or citrate of magnesium. For the high fever, severe headache, pain and general soreness, one Anti-kamnia Tablet every three hours is quickly followed by complete relief. Ask for A-K Tablets. They are also used for headache, neuralgia and all pains.

SAYS WOMEN ARE CRAZY ABOUT IT

Using gasoline to dry clean everything and save \$5 in an hour.

Dry cleaning at home is all the rage here, says a well-known downtown druggist. Any woman can do five dollars' worth of dry cleaning at home at very little cost by dissolving two ounces of solvite in two gallons of gasoline; then immerse the articles to be cleaned; rub a little and in a few moments the gasoline evaporates and the articles cleaned look as bright and fresh as new.

Dry clean your own silk waists, dresses, ribbons, belts, kid gloves, satin shoes, evening slippers, fine laces, net work, woollens, dresses, children's coats, furs, veils, neckties, shawls, gentlemen's garments, fancy vests, lace curtains, rugs, in fact, everything that would be ruined by washing with soap and water. Nothing will fade, shrink or wrinkle, making pressing unnecessary.

Dry cleaning at home is inexpensive and effects a tremendous saving in the household and is really just as easy as laundering. Any druggist will sell two ounces of solvite which is simply a gasoline soap and your grocer or a garage will supply the gasoline. Then a wash boiler or dishpan completes the outfit. As gasoline is very inflammable, be sure to do your dry cleaning out of doors or in a room away from fire or flame, with the windows left open.

The TRIBUNE'S Daily Short Story

JUDY OF REST AWHILE

BY IZOLA FORRESTER

Copyright, 1915, by the McClure Newspaper Syndicate.

Celia listened before she turned down into the pine woods after the runaway. Over in the pasture the cows lifted their heads to watch her calmly. Overhead in the clear blue sky above the pines a crow rose and mocked her as it flew back toward the farmhouse.

"Mother says for you to come right straight back home now!" she called again. There was no response from the pines. "She's all ready to go. Judy," this as a kind of bait. "You might as well come."

She hesitated a minute, climbed the rail fence and started into the thicket of tall ferns and brush tangle, but back in the pasture there came a restraining voice, Judy perched high in the big chestnut tree, safe from pursuit.

"Did you want me, Celia?" she asked mildly. "I'm over here getting some nuts. The frost didn't hardly open any at all last night. Want some?"

Celia shook her head, wrapped her hands in her apron and started for the house whose white chimney just showed above the shoulder of the hill.

"You'll catch it when you come," she sent back as a parting shot.

Judy waited until she was out of sight before she dropped from her perch. She was nineteen. Judy of Rest Awhile Farm, brown haired, brown eyed, freckled, slender and graceful as a silver birch, with all the obstinacy and pertinacity of the Gregorys concentrated in her general makeup. Celia was easy going, pliable, quick to shirk responsibility, but willing to follow under direction. She was over twenty. Sometimes Judy used to look at her and marvel how even romance had come to her in disguise. She had always kept company with Rony Phillips, son of the timber man, and would be married in the spring as soon as Rony's father had found time to cut the lumber for their house and help build it. And Celia was content to wait and do most of the work at the farm.

Just the minute her flaxen braids disappeared over the hilltop Judy ran up the worn cow path to the fringe of birchwood and slipped into it, bound for the sculptor's house. Ever since early summer it had been the house of wonder to her, the place where beauty was a real tangible thing, not a vague idea. First she had been sent with eggs and butter and fresh milk to him. His mother even was different from any other mothers she had ever known. She was pretty and gracious, with a soft laugh and a youthful way with her. One day she had led Judy down the lane to the studio he had made of an old woodshed. Here she had seen him first, working among his beautiful silent figures and after the first few visits he had asked her to let him use her hands for his statue of "Diana Holding a Young Fawn."

"You have perfect hands, Judith," he told her in his absentminded, impersonal way. "You must let me make casts of them."

Judy nodded understandingly. She had always admired her hands.

"I like to kneel down by the brook and put them in the water where the sun shines on them and watch how pretty they look with the water bubbling over them," she had told him. "I don't think it's wrong to like them myself, do you? The rest of me doesn't match them, you see."

Then Whitney had looked at her for the first time, really looked at her slowly, deliberately, with artistic approval.

"I think you're all right," he had said. "I'd like to use your head for my Thetis. It has all of her elusive challenge."

Judy had asked Celia that night if she had ever heard of Thetis, but Celia had not. In among the old high school books was an old work on mythology, and here Judy read of the elusive lady and her pursuing, changeable wooer, and it delighted her heart. Woovers should pursue, she believed, and should be given a hard chase, not just come along some day when they felt like it and tell one's mother they were willing to marry you the way Hale Tuttle was doing that very afternoon. It had been such a wonderful summer and autumn posing for Thetis' head and Diana's hands and some Egyptian girl who stood among lotus leaves and fed the sacred crocodile from her perfect hands. She had forgotten all about Hale and his general intentions which had been manifest toward her for years. Hale just seemed sort of comical when you measured him up besides the Greek gods and Whitney Dewing.

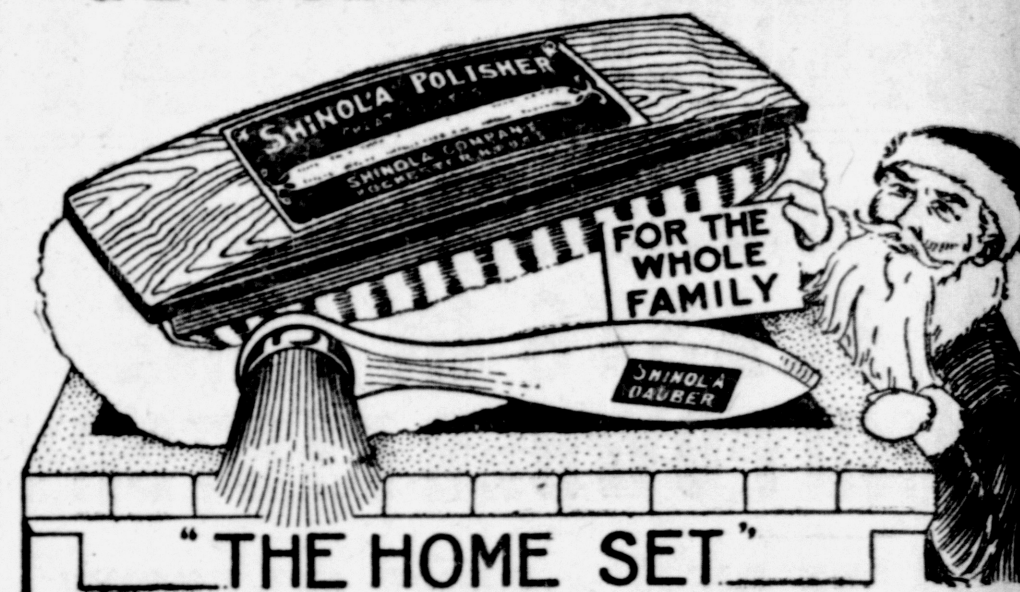

Judy turned breathlessly into the lane to the little house among the maples and hesitated just for a second. A black roadster stood under the trees, and Mrs. Dewing had the tea table out on the veranda. Judy's quick eyes saw Whitney strolling back through the lane from the studio with a tall girl in a long gray cloak.

"Come here, Judy, won't you, and join us?" called Mrs. Dewing. "You have just seen the statues, Alice, but here is the real, live little Thetis. I don't know what Whitney would have done without her?"

"She has perfect hands, Alice, look at them," Whitney exclaimed eagerly. Judy had never seen him eager before. She held out her hands obediently and smiled with the Gregory pluck even in defeat. And

AMERICA'S HOME SHOE POLISH

BLACK-TAN-WHITE

all at once, as she sat there drinking tea with them all, hearing them make plans for the wedding before Christmas, seeing the restful ease and loveliness of his chosen lady fair—all at once Judy opened her brown eyes wider than usual and announced:

"I'm going to be married, too. Oh, I've been engaged for years, off and on. No, indeed, the same one," blushing at Whitney's rallying teasing. "He's Judge Tuttle's only son, and he's graduated from the State Agricultural college, and—'bravely—I've always liked him best of anybody.'"

"Hale Tuttle?" queried Whitney. "Really, Judith? That big, fine looking chap with the curly hair who superintended the work on the state road over here?"

Judy nodded proudly.

"Hale can turn his hand to most anything. We'll probably live nearer town when we're married—"

And just here it occurred to her all at once that she had not told Hale yet that Hale was lingering on back home, waiting for an answer, while she had run away to find the trail of romance, and, lo, it only circled around and led back over the cow path through the silver birchwood to Rest Awhile Farm, and Hale waiting for her.

"Did you enjoy posing?" Alice asked.

"I did for Thetis," Judy answered happily. "I liked her changing into so many different forms, but she had to be herself at last. I guess we all do. I must hurry back. Hale's waiting."

Well Shaken, When Taken—First Autoist—"How's the road? Rough?" Second Autoist—"Well, I'll say it's no pleasure to trust cheap dentistry!"—Judge.

BRITISH RETREAT FROM BAGDAD SAYS GERMAN STATEMENT

BERLIN, via Tuckertown Wireless, Dec. 1.—Pursued by the Turkish forces, the British are still in retreat from the vicinity of Bagdad, the Constantinople war office reported today. The English cavalry commander is said to be among the 1,000 dead left on the field.

LISLE BANK ROBBED

STAMFORD, Conn., Dec. 1.—Thieves chloroformed Mrs. Ida Shere and removed \$800 from her Lisle bank.

FEEL YOUNG!

It's Dr. Edwards' Olive Tablets For You!

Beware of the habit of constipation. It develops from just a few constipated days, unless you take yourself in hand. Coax the jaded bowel muscles back to normal action with Dr. Edwards' Olive Tablets, the substitute for calomel. Don't force them to unnatural action with severe medicines or by merely flushing out the intestines with nasty, sickening cathartics.

Dr. Edwards believes in gentleness, persistence and Nature's assistance. Dr. Edwards' Olive Tablets open the bowels; their action is gentle, yet positive. There is never any pain or griping when Dr. Edwards' Olive Tablets are used. Just the kind of treatment old persons should have.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two occasionally and have no trouble with your liver, bowels or stomach. 10c and 25c per box. All druggists.

Peruna Has Been

A Godsend To Me

I Can Feel Safe In Saying That It Saved My Life

Mrs. Charles Ansbaugh, R. R. 7, Lagrange, Ind., writes: "Peruna has been a godsend to me. I can feel safe in saying that it saved my life, as I was all run down and was just miserable when I commenced taking Peruna, but am on the road to recovery now. I cannot thank you too much."

Miss Nettie E. Bogardus, R. F. D. 21, Westfield, N. Y., writes: "I have been a great sufferer from sick headaches, but am now entirely free from that trouble. I would recommend Peruna and Manalin to all sufferers." Those who object to liquid medicines can now procure Peruna Tablets.

STAMP OUT THE WHITE PLAGUE

The Red Cross Christmas stamp
campaign is upon us.

Don't shy.

The stamp campaign is with us a
few weeks each year and costs us a
few cents—the most financially able
but a few dollars.

The thing the red cross stamps are
stamping out IS WITH US ALWAYS.
Every few days, in every community,
there is crepe on the door, the
church bell tolls and some bread
winner "joins the innumerable car-
van."

Let no letter or parcel leave your
hand without first affixing the red
cross stamp.

Stamp out the white plague.

THE GREATEST NEWS OF THE DAY

"What's the news?"

The papers are full of news, every
day.

"A great many 'ads,'" one ob-
serves.

Did you ever stop to think that
"ads" are news, and that particularly
during the holiday period they are
the most important news, having a
direct dollars-and-cents interest to
the reader?

You must secure Christmas pres-
ents. If you don't know what you
want, the "ads" suggest things to
you. If you do know what you want,
but don't know where to find it, the
"ads" tell you. The "ads" also tell
you where the prices are most favor-
able.

If we had to choose between the
news value of a murder in Texas
and the description and price of a

choice holiday gift in a La Crosse
store, we should choose the "ad" as
the more important news, and we
believe most of our readers will
agree with us.

AN X-RAY OF THE "CONFERENCE COMMITTEE"

Recently we commented upon a
letter in which the "Conference Com-
mittee on National Preparedness"
sought to convince the TRIBUNE of
that organization's disinterested pa-
triotism. We felt that in giving us
the names of four officers of the
committee, without disclosing those
back of it, the secretary had not
frankly answered the accusation that
the market for war materials is in-
volved in the "conference" propa-
ganda.

However, the secretary did enu-
merate nine organizations affiliated
with the "Conference committee,"
and light now thrown upon one of
these—the "navy league"—may tend
to more clearly fix the status of
the "Conference Committee." We
quote from the New York Times,
June 11:

The Navy League started its cam-
paign for an American navy second
to none in the recess club, 60
Broadway. As a result of the discus-
sion which followed, more than \$17-
500 was subscribed to be used for
the League's propaganda. Those at
the luncheon included Elbert H.
Gary, Theodore P. Shonts, Frederic
R. Coudert, Ogden Mills Reid, J. P.
Grace, George F. Baker, Jr., Colgate
Hoyt, S. H. P. Pell, Harry Payne
Whitney, Herbert L. Satterlee, and
Seward Prosser. Subscriptions an-
nounced after the meeting were as
follows: J. P. Morgan, estate, \$2-
000; R. M. Thompson, \$1,000; E. H.
Gary, \$1,000; G. F. Baker, Jr., \$1-
000; J. H. Harding, \$500; L. L.
Clark, \$250; Seward Prosser, \$100;
C. N. Bliss, Jr., \$100; J. P. Grace,
\$100; and O. L. Mills, \$100.

There we have it! Morgan, Gary,
Clark and Mills, officers or directors
of immense industries engaged in
traffic in war equipment and materi-
als; Baker, Harding, Prosser, Bliss
and Grace identified with the group
of banks that financed the war loan,
banks identified with the steel trust
and other great war-game traders.

We blush for Secretary Clark's an-
nouncement that the "Conference on
National Preparedness" takes no
money from makers of war munitions.
The Navy League, the most
powerful of its constituent bodies,
(an organization distinct from the
navy), fattens on this business. Why
does not the "Conference Commit-
tee" expel the Navy League?

THINK BEFORE IT IS TOO LATE

It will be noted that the Navy
League proposes an American navy
"second to none." There goes the
cat! "Preparedness" today seeks a
\$500,000,000 navy appropriation as
an opening wedge. Ultimately it
seeks the greatest navy in the world,
the greatest army in the world—and
war.

Pray heaven for the power to
think in time. The president propos-
es to force through the navy pro-
gram before matters of revenue are
touched. Militarism and democracy
are incompatible, and we shall be
on our way to militarism within two
months unless the sober second
thought intervenes to check the mad-
ness and prevent us from torpedoing
our own ship of state.

Safety First

Binks—You don't need to shave
every day.
Jinks—But I go to see my girl
about every night.
Binks—Your beard isn't enough
for her to notice and she would never
see one day's growth.
Jinks—It isn't the seeing part that
worries her. "She doesn't like to feel
it."—Brooklyn Enterprise.

In the Gloaming

Annie—It was awfully dark where
we met under the trees, and the first
thing I knew, he'd kissed me.
Fannie—I wouldn't be angry
about it, dear. I don't think he'd have
done it had it been in the daylight.
—Judge.

Quips and Cranks and Wanton Wiles

Cut It Out
I ain't a-goin' to rave and shout.
I don't know what they're fussin'
'bout.

Therefore, I ain't a-goin' to mix
Up in the game of politics.
It seems to me this ship of state
Is sailin' at the same old rate
And won't be sunk by any foe
No matter how election goes.
The future ain't noise forlorn.
It's been the same since I was born.
The statesmen always sing the same
Old song and it is growin' tame.
They see disaster right ahead.
They're always scared to go to bed
For fear the country will not keep
Together while they are asleep.
But still the country does not stop;
It keeps on climbin' to the top.
Things are O. K. fur as I see.
Don't talk no politics to me.

The Lecture Platform

An American gentleman got ac-
quainted with a Frenchman who was
very anxious to acquire the English
language. The American, in order
to help him, said that if he would
send his exercises to him he would
willingly correct them.

Nothing was heard from the
Frenchman for some time, but finally
a letter came, couched in the
following choice English:

"In small time I can learn so many
English from his textbook and her
dictionary as I think I will to come
at the America and to go on the
scaffold to lecture."

Language Difficulties

A French singer recently attended
a reception at the home of a woman
noted for her parsimoniousness. The
hostess tried to converse with the
Frenchman in his native tongue. He
noticed that her lack of fluency was
embarrassing her, and with com-
mendable politeness, exclaimed:

"Pardon, madam; somewhat the
French is difficult for you; but I am
able to understand your meanness if
you will the English speak."

Some Consolation

"There's one consolation about be-
ing in jail, mum."
"What is it, my poor man?"
"After I once go to bed nobody
here makes me get up and go down
to be sure that the back door is
locked."—Detroit Free Press.

Out of the Question

"Now, my boy, get to work. The
world is your oyster."
"Just so, dad; but I can't get to
work yet. Oysters won't be in sea-
son until September."—Judge.

Have Some Fun

That penny for the rainy day may
keep the howling wolves away—it's
well to save your little pile, but
have your good times all the while.

IF BACKACHY OR KIDNEYS BOTHER

Eat less meat, also take glass
of Salts before eating
breakfast.

Uric acid in meat excites the kid-
neys, they become overworked; get
sluggish, ache, and feel like lumps
of lead. The urine becomes cloudy;
the bladder is irritated, and you may
be obliged to seek relief two or three
times during the night. When the
kidneys clog you must help them
flush off the body's urinous waste or
you'll be a real sick person short-
ly. At first you feel a dull misery
in the kidney region, you suffer from
backache, sick headache, dizziness,
stomach gets sour, tongue coated and
you feel rheumatic twinges when the
weather is bad.

Eat less meat, drink lots of water;
also get from any pharmacist
four ounces of Jad Salts; take a table-
spoonful in a glass of water be-
fore breakfast for a few days and
your kidneys will then act fine. This
famous salt is made from the acid
of grapes and lemon juice, combined
with lithia, and has been used for
generations to clean clogged kidneys
and stimulate them to normal activ-
ity, also to neutralize the acids in
urine, so it no longer is a source of
irritation, thus ending bladder weak-
ness.

Jad Salts is inexpensive, cannot in-
jure; makes a delightful efferves-
cent lithia-water drink which every-
one should take now and then to
keep the kidneys clean and active.
Druggists here say they sell lots of
Jad Salts to folks who believe in ov-
ercoming kidney trouble while it is
only trouble.

SUFFERED 15 YEARS WITH PSORIASIS

Weeks at a Time in Such Misery Did
Not Get a Night's Rest. Used Cuti-
cure. In 18 Weeks Entirely Well.

107 N. Mesaba Ave., Virginia, Minn.—

"Since I was fourteen years of age I suffered
with psoriasis. I was suffering for fifteen
years. For the first nine or
ten years it would come and
go but each appearance would
be longer and more severe
until I got so bad that I
could not do any work. At
times there was not a place
on my entire body, excepting
my face and hands that
was not covered. Weeks at a time I would
be in such misery that I did not get a
night's rest. My body was covered with
shiny white scales and under them was as
red and inflamed as blood. They would
crack open some half an inch in length.

"My husband was telling a friend of the
condition I was in, and he too had been a
sufferer of the same trouble and had been
healed by Cuticura Soap and Ointment. I
at once commenced the treatment. In
eighteen weeks I was entirely well." (Signed)
Mrs. Edwin Mitchell, June 22, 1914.

Some people think life's so drear
they haven't any room for cheer.
We only have a little time, so listen
to this crazy rhyme. And as you
travel on life's way, don't paint the
skies a sombre gray. For recreation
is the stuff that helps men measure
up to snuff. It puts the ginger in
the step and fills a mortal full of
"pep." Providing you don't over-
do, you'll never recreation rue. And
when you get to work next morn you
won't feel hopeless and forlorn.
You'll say, "I'm living and, by heck,
I'll work darned hard for next
week's check." For there's a time to
work and slave, a time to play, a time
to save, a time for this, a time for
that—just paste this logic in your
hat. So don't neglect the useful fun
before your course on earth is run.
Just take a little time to play and
life will be a happy day.

Fred Keister Says:

Up at Belding the other day they
sent a poor cuss to the insane asy-
lum for trying to imitate Billy Sun-
day. It seems that while in the
midst of a religious fervor he got in-
to the church and commenced to ring
the bell, but it would appear to us
that if he had been posing as the
famous evangelist he would have
been passing the collection plate in-
stead of ringing the bell.

Speaking in War Terms

War terms are getting into ordi-
nary speech, as a matter of habit.
For instance, Jude Johnson, while
talking about a row with his wife,
made this statement this morning:
"I retreated, but with great loss to
the enemy."—Atchison Globe.

LAW UPHOLD

WASHINGTON, Dec. 1. — The
Missouri law allowing the levying of
special taxes on land in drainage dis-
tricts was upheld by the supreme
court in the case of Louis Houck
against the Little River drainage dis-
trict.

The drainage districts are subject
to the right of eminent domain was
decided in the appeal of O'Neill
against Leamer from the Nebraska
supreme court. O'Neill, a Dakota
county farmer, sued to prevent con-
demnation of his land.

ing Lithographers began the annual
convention here today.

PEACE TABLOIDS

NEW YORK.—"Henry Ford is a
great man—but so was P. T. Barn-
um." Former Senator Chauncey M.
Dewey said today.

NEW YORK.—Meyer London, social-
ist, will introduce a resolution in
congress urging the president to call
a peace congress of neutrals.

PHILADELPHIA. — Declaring
Germany will win a 4th annex Can-
ada, Charles E. Russell, socialist
leader, urged a bigger American army
and navy.

ART NOTES

(Quoted from the Art Quarterly)

There are three art associations in
the state aside from the one in Mil-
waukee. Madison Art association is
the oldest in the state, and has been
showing exhibits of pictures in the
state library for a number of years.
This year it is working in conjunc-
tion with the Milwaukee Art society
in a number of exhibition matters.
The Beloit Art association is closely
connected with Beloit college, which
has an art museum and which is
about to erect a new art hall. La
Crosse Art association is the young-
est in the state, having been formed
but last year. It now has over three
hundred members and is making tem-
porary exhibitions in a charming lit-
tle room in the public library.

In Chicago is an organization
called "The Friends of American
Art." Each year one or more paint-
ings are purchased by this society
and presented to the Art Institute of
Chicago for the permanent collec-
tion, the plate on the frame showing
this fact. What a fine thing for all
parties concerned! encouragement
for the artists; education in art for
the people at large; and a good thing
for the Art Institute; and lastly a
good thing reflexively for the orga-
nization purchasing the canvases.

Speaking of encouragement of art,
the biggest single step taken in this
tangible way was the purchase with-
in the past week or two by the com-
pany managing the Congress hotel in
Chicago for that great hostelry of
\$150,000 worth of paintings from
four of Chicago's artists. This is the
real thing. While one may get ex-
hibits for a year or two with few or
no purchases being made, any art so-
ciety will come soon to the point
where exhibits are not easily secured
unless something, however small, is
occasionally purchased.

Apropos of purchasing art goods,
the Art Workers' club of our city
ought to bestir itself sufficiently to
own one of these good examples of
the etcher's art and one of Mr. Low-
ell's cartoons, for the fine illustra-
tions they are of drawing and of the
process of etching.

The exhibit must be packed and re-
turned in a day or two. The writer
wonders whether the general public
realizes fully the opportunity now
offered of seeing and becoming ac-
quainted with the best examples of
that most refined of the arts, etch-
ing. Keppel's of New York are the
greatest collectors in this work. The
rotary exhibit, sent out annually by
the American Federation of Fine
Arts at Washington, D. C., uses the
etchings of the Keppel company.

Years ago this company bought up
all the Zorns its agent in Europe
could secure. Within the past eight
years, to the writer's personal knowl-
edge, the etchings of this great mas-
ter have more than doubled in price.
Mr. Pennell, because he is still living,
and also because he is so prolific and
such an inveterate worker still pro-
duces in such quantities that he can
(at least does) keep his etchings at
about \$12 uniformly, although his is
the supreme name among American
etchers, and is among the world's
worthies in this line. Now is the
time to secure a Zorn, a Pennell, or
one of these notables. Select the one
that pleases you. All the etchings and
drawings here are for sale, the prices
being marked plainly on the mats,
usually in the lower right hand cor-
ner of the mats, for the etchings, and
in red labels for the Lowell draw-
ings.

An etching is an intimate small
picture. A large etching is as much of
an anomaly as a large miniature
would be. So Whistler held. Look
then for two things: the fineness
of the lines, and the fewness of the
lines. Note how much the etcher's
needle has been able to accomplish
with few lines. See what significant
strokes they are, how the artist has
found with sure knowledge just
which are the important lines to pic-
ture a situation, to draw a character,
to create an atmosphere.

Many persons have had their lik-
ing for the etcher's art somewhat
misdirected or destroyed by the old,
large "remarque" examples with
which our country was rather plen-
tifully supplied after the days when
the chrome ceased to adorn the
walls of our "best room," much as
the commercial "pot-bollers" of the
Morans have surfeited many with
the whole idea of paintings. Refer-
ence is made to some of the grand
views in the Rockies or the Grand
Gorge, etc. But these things should
not withhold the discriminating from
study, from the enjoyment which the
fine workman, the true artist does,
be the medium oil or the etching
needle.

DON'T SUFFER WITH WINTER ECZEMA

This irritating and exasperating malady can be relieved with
S. S. S.

Winter Eczema, sometimes called
TETTER, is one of the many varie-
ties of the irritating and tormenting
disease known as Eczema. A deep-
seated blood disease that is so often
confused as a Skin Disease. Don't
think that you can rid yourself of it
by washing with medicated soaps or
medicated lotions. You will save both
your time and money by leaving them
alone. Winter Eczema is seemingly
dead during the hot months, but with
the advent of cold weather it comes
to life with renewed vigor. The head,
feet and hands are the parts most of-
ten attacked, though it sometimes ap-
pears on other parts of the body, the
skin hardens, cracks open and bleeds,
while the itching and burning is at
times almost unbearable. Scratching
only makes it worse, sores and scabs
forming where the skin is broken.

In this form of Eczema brownish
white crusts sometimes form which
scale off in fine particles, leaving the
skin raw and inflamed. It is especially
painful and severe when confined to

the hands, which often become so
badly affected that the sufferer is un-
able to perform the lightest work.
This, like all other types of Eczema,
is due to the acid poisons in the
blood and not to local causes. The
trouble is more than skin deep, and
washes, soaps, powders and salves
nor anything else applied to the sur-
face cannot possibly do more than
soothe the burning and itching or re-
lieve temporarily the inflammation
and pain.

It is the acids thrown off by the
blood and which are forcing their
way through the pores that cause the
skin to harden, crack and bleed, and
produce the irritation and soreness.
S. S. S. neutralizes these acid poisons
and cleanses the blood of all irritating
substances and humors, and does it
promptly and effectually. Beware of
imitations—refuse substitutes.

S. S. S. purifies and invigorates the
thin acid blood, and builds up the
entire system; then the unsightly
eruptions heal; the skin becomes
smooth and soft, and all signs of the
Eczema disappear. Get S. S. S. from
your druggist, and write for our special
book on skin diseases—free. Write the

partment, Room 17, Atlanta, Ga.

KITCHENER BACK IN LONDON FROM TRIP TO NEAR EAST

LONDON, Dec. 1.—Lord Kitch-
ener arrived in London today.

Kitchener will report at once to
King George and Premier Asquith
concerning his observations on the
Gallipoli peninsula and at Salonika
and his consultations with King Con-
stantine of Greece. King Victor
Emmanuel of Italy and General Can-
dorna, the Italian commander-in-
chief, and the French government
heads.

His return is disposing of rumors
in circulation when he left England
that he would take personal com-
mand of the allies' campaign in the
Balkans.

OWNERS AND TENANTS BLAMED

NEW YORK, Dec. 1.—Responsi-
bility for the loss of twelve lives in
a fire in the Diamond Candy factory
in Brooklyn last month was placed
on Edward I. and Cecilia Diamond,
the owners and Samuel Barkin and
Samuel Simon, tenants by the verdict
of a coroner's jury this afternoon.
An order for the arrest of the Dia-
monds was issued by the coroner.

JUDGE REFUSES TO DISMISS CHARGES AGAINST OFFICIALS

NEW YORK, Dec. 1. — Judge
Howe this afternoon over-ruled the
motion of the attorneys for the de-
fense to dismiss the indictments
against four Hamburg-American offi-
cials charged with illegally supply-
ing German warships from Ameri-
can ports.

Judge Howe agreed with defense
counsel that the shipment of sup-
plies to German warships at sea and
the voyages of neutral vessels for
that purpose were legal. He indicated
the opinion, however, that the man-
ifests should have been properly ex-
ecuted and that the violation of cus-
tom laws in this respect was ques-
tion for the jury to determine.

dom appreciated at 5 a. m.

LONE MAN HOLDS UP THE PIONEER

Sixteen Passengers of Milwaukee Train Are Robbed This Morning

MILWAUKEE, Wis., Dec. 1.—A lone bandit held up and robbed sixteen passengers on Train No. 4, known as the Pioneer Limited, between Watertown and Oconomowoc, early today. The train arrived here from Minneapolis at 6 o'clock.

Frank Millard is being held by police here in connection with the robbery.

Although first reports stated that the train was held up, it later developed that the passengers in the smoking car were robbed while they slept. Most of the men robbed were lumberjacks.

The police claim that Millard left the train at Oconomowoc and came to Milwaukee on an interurban car. The train left Minneapolis last night and reached Chicago this morning.

Two Ideas of the Picnic. The Hindu term for picnic is said to be, by literal translation, "fools' feast." But the Anglo-Indian who likes to take his best girl and a basket of indigestible edibles upon an arduous journey to a distant place, to eat delightedly a much worse dinner than he might have at home, has more imagination and a keener zest of life than the native who assumes an air of superiority.

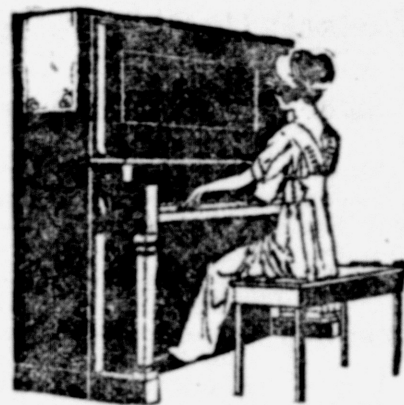

SAGE TEA DANDY TO DARKEN HAIR
It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.
You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.
Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.
This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight and you'll be delighted with your dark handsome hair and your youthful appearance within a few days.

Full of humanity and humor. It breathes the spirit of universal good will as does no other novel of recent years. —Philadelphia Press

This Is What Paderewski Thinks Of His Gifted Protege Who Has Recital At State Normal Tonight

New York, Nov. 15, 1915.

Dear Mr. Jonson:

It gives me pleasure to tell you that I consider your pianistic achievements very remarkable, indeed. The skill and character displayed in overcoming a natural handicap, added to your high and artistic gifts, certainly are worthy of the utmost praise and encouragement. In view of this I can but most heartily recommend your professional services and wish you a well-deserved success.

Faithfully yours,

J. J. PADEREWSKI.

MAN WHO THINKS HE'S PERSECUTED SENT TO ASYLUM

Hugh Robertson Who Says the Police Constantly Hound Him Committed to Mendota

LABORING under the hallucination that he was being persecuted at every turn, and that he was being arrested by police officers repeatedly on charges of which he was innocent, Hugh Robertson, aged 39, and a native of Payette, Iowa, was committed to the state insane asylum at Mendota this morning by County Judge John Brindley. Commitment papers were made out following an examination by Drs. R. E. Flynn and R. H. Gray.

Robertson is now in the county jail, where he has been for six months. He was sent there when he pleaded guilty to a charge of theft lodged against him. He will be taken to Mendota within a day or so by Sheriff George Ritter.

Robertson's name has become familiar to local authorities. When in court he claimed he has been arrested seventeen times on various charges, on fifteen of which he protests his innocence.

He has served time in the state prison and county jail, and is under the impression that all the charges instituted against him have been made by his brother, Glen Robertson, an employee at the Gateway City Transfer company in this city. He was confined at the county asylum at Winnebago, Wis., for eleven months in 1910, because of his irrational actions.

He is unmarried and has no rela-

tives except the brother named in the charges, so far as the local authorities have learned.

Why They Fire 101 Guns.

The origin of the English royal salute, which consists of 101 guns, is explained as follows: It was originally decreed that the sovereign should be saluted with 100 guns, but once when the duke of York, afterward William IV, was being greeted by the fleet the officers in charge lost count and ordered another round to be fired to make sure.

PNEUMONIA ON INCREASE
Pneumonia is the greatest rival of
tuberculosis as a "captain of death."
In one official report it exceeds con-
sumption in the next it takes sec-
ond place. But pneumonia finds a
considerable proportion of its victims
among the old and infirm who are
about ready to die anyway. Again,
it causes a large number of deaths
among infants who have a weak grip
on life.

One reason why as vigorous a cam-
paign against pneumonia as the one
against consumption is not being
waged is that the facts concerning
the spread of pneumonia are not
nearly so clear as they are concern-
ing tuberculosis. For example, we
know that drunkenness, extreme ex-
haustion, and a generally run down
condition may precede pneumonia
and then we frequently see that
strongest and most athletic young
men and women succumb. Indeed,
some medical authorities hold that
pneumonia and typhoid are more
likely to attack the strong than the
weak.

While we may not have so clear a
picture of the causes of pneumonia
as is desired and while our facts
seem occasionally to contradict each
other, what is definitely known about
prevention should be utilized. Con-
sideration of pneumonia is timely
now, as we are entering the season
of the year when this disease is most
prevalent and when it is, therefore,
most important for one to be on
guard.

Inasmuch as debilitating diseases
certainly pave the way for pneumo-
nia, persons not in robust health and
those using alcoholic liquor should

be especially careful to avoid ex-
posure to cold and to wetting from
rain and melting snow.

On the other hand, homes, offices
and shops should have an abundance
of fresh air. It should be remem-
bered in this connection that the
most successful treatment of pneumo-
nia is accomplished in open window
rooms. People who are susceptible
should avoid crowding in ill-venti-
lated, over-heated theaters and other
congregating centers, because pneumo-
nia is unquestionably a communi-
cable disease and frequently takes epi-
demic form.

Care should be taken to keep chil-
dren in as robust, physical condition
as possible. Food should be of up-
building kind and a sufficient amount
of sleep should be insured. Diseased
tonsils, adenoids and other conditions
which sap a child's strength should
be corrected.

In addition to securing the very
best form of life assurance against
pneumonia, tuberculosis, and other
diseases by being guided by the
above considerations, one will be re-
warded furthermore by being in con-
dition to get the utmost of joy out
of living.

LA CRESCENT MAN
FINED FOR TAKING
COWS OVER BRIDGE
 He Was Just Moving and
 Knew Cattle Were Safe
 Lockwood Tells Winona
 U. S. Court

William Lockwood, La Crescent, pleaded guilty in federal court at Winona late yesterday afternoon for taking two cows across the Mississippi river wagon bridge here in violation of the foot and month disease quarantine on March 14, 1915. Lockwood was fined \$100 and costs.

Lockwood received the minimum fine under the law after explaining to the court that he was engaged in moving from one state into the other at that time and had brought all property but the cows to his new home. Wisconsin then was a closed state under federal quarantine because of an outbreak of the hoof and mouth disease. He learned positively that his cattle were not affected and drove them across.

 in a tour of the North Platte Valley of Nebraska and the Big Horn Basin of Wyoming, leaving Omaha, December 7? The prevailing high prices and great demand for agricultural products will soon force a big increase in land values. This trip will enable you to see first hand the almost unbelievable opportunities that abound in these sections and give you a chance to buy land before the price goes up. Neither the company nor myself have any lands for sale and my services are free. We want reliable farmers as residents along our lines. I strongly urge you to make this trip, because it won't cost you much, and because I believe it will pay you handsomely to do so. How many will there be in your party and where will you start from? HOLSTEIN RAISERS
OF FIVE COUNTIES
ORGANIZE TUESDAY

Twenty Breeders Attend Meeting at Onalaska Agricultural School Yesterday

Organization Expects to Place District Well to Front in Ranks of Holstein Breeders

Saving of thousands of dollars to Western Wisconsin stockmen in freight rates and the placing of this section of the state well to the front in stock breeding ranks is expected to result from the meeting yesterday at the county agricultural school at Onalaska of twenty representative Holstein breeders of the counties of La Crosse, Monroe, Trempealeau, Vernon and Jackson, and of their organization into the Western Wisconsin Holstein-Friesian Breeders' association.

That stockmen in this section of the state heretofore have been compelled to buy their blooded Holsteins in Waukesha and Jefferson counties was stated. It was with the purpose of creating an adequate supply of cattle of the particular breed in Western Wisconsin that the organization was formed. From this time on, Secretary E. L. Liddle of Onalaska said today, it will be possible for buyers to obtain carload lots of Holsteins from the association, through the co-operation of breeders.

C. Vandershaaf, Sparta, was elected president of the organization, with William Hagestad of Ettrick as vice. L. M. Compton, superintendent of the Indian school, at Tomah, was chosen treasurer. E. L. Liddle, head of the animal husbandry department of the La Crosse County School of Agriculture and Domestic Economy of Onalaska, was elected secretary. On the executive committee were placed Mr. Carter of Galesville, John Sprain, West Salem, and E. L. Nuttman, Holmen.

The association will be well advertised. A committee, composed of L. M. Compton, T. H. Campion, principal of the county school, and Fred Sprain of West Salem, was chosen to superintend publicity, which, it is expected, will be extended to the leading agricultural and stock journals of the county. The advertising campaign will be one of the principal means taken to put the association and the territory it represents on a par with any like organization or breeding community in the state.

Present at the meeting to aid in organization was G. H. Humphrey, head of the animal husbandry department of the college of agriculture, University of Wisconsin. His address had co-operation as its keynote.

LIGHT THE SHOP
AND AVOID HURTS
SAYS C. W. PRICE

Efficient Lighting Is Not Expensive and It Prevents Accidents Safety Round Table Is Told

MORE ACCIDENTS IN THE WINTER

Almost Double in Four Months of Short Days Says State Expert Illustrating Value of Light

Shop-lighting as a means of avoiding accidents was presented to members of the La Crosse Safety First Round Table last night by C. W. Price, assistant to the industrial commission, in a stereopticon lecture at the city hall. In the neighborhood of half a hundred employers, foremen and employees of the city's factories heard Mr. Price speak.

Dark Brings Accidents
 Ten per cent of a series of 91,000 accidents recently investigated by an insurance company were due to defective lighting, Mr. Price declared. Of the 91,000, 13.8 per cent of the accidents had had lighting as a contributory cause. As showing the part that lighting plays in industrial accidents, Mr. Price said that about double the number of accidents happen during the four winter months when the days are short, as compared with the summer months when the days are long.

"Efficient shop lighting," said Mr. Price, "is now considered by progressive managers as an indispensable part of an efficient shop equipment. Investigations by reliable authorities of large numbers of plants have demonstrated that efficient artificial lighting will increase the total output of plants such as steel mills, two per cent, and textile and shoe factories, 10 per cent. The cost of efficient shop lighting is from one-tenth to one-half of one per cent of the wages. For instance, if a man earns \$3.00 a day it would cost him about a cent and a half to furnish him with adequate light."

Commission Orders
 "The orders of the industrial commission require that for ordinary departments, where there is no smoke or gas, there should be provided one-fourth candle power per square foot. That is, a 100 candle power lamp hung 10 feet from the floor will illuminate 400 square feet of floor space. For foundries one-half candle power is required per square foot. On machines where fine work is being done, sufficient light is required to avoid eye strain."

Mr. Price recommended the Tungsten lamp as the best type of lamp for all shop conditions. He was particular to state that Tungsten is not a trade name and these lamps are not monopolized by one company but are manufactured by a number of companies which are in sharp competition. The light from the Tungsten lamp is almost the same color as sunlight and is very cheerful and pleasant in its effect. The modern Tungsten lamps are very durable; the life ranging from 1,000 to 2,000 hours. The Tungsten lamp consumes only one-third to one-fourth as much current as the old type of carbon filament lamp which is so commonly used in factories. In the average factory the old types of lamps can be replaced with new lamps and the light can be increased three or four times, with no additional cost for current.

BROTHERS OBTAIN
PERMIT TO WED
PAIR OF SISTERS
 Court house attaches do not know whether he got the "fever" when his brother declared his intention of going to La Crosse for a permit to wed Miss Ida Martin of the town of Greenfield, but tenny-rate William Schultz of Chasaburg appeared in County Clerk Bert Jolivet's office late yesterday afternoon with his brother, Herman, who is to marry Ida, and asked that the clerk make out another slip, identically the same as the first with the exception of a change in the first names of the principals. He is going to marry Miss Elsie Martin, sister of Ida.

"If they were only twins, what a peach of chance there would be to get balled up before the minister," murmured a court house official as the exuberant quartet of brothers and sisters left the office.

Nothing succeeds like the efforts of a woman to be disagreeable.

NEW SUB-DIVISION
WILL BE OPENED
MIDDLE OF MONTH

Hogan Estate Tract at Main and Seventeenth Street Is Purchased by George Zeisler

Prospects for building activity in the valuable residence section east of Seventeenth street between Main and King streets became suddenly bright this morning when it became known that a new sub-division is to be opened about the middle of the month on this plot. The land has been lying vacant for years. It was part of the Hogan estate, and last week was purchased by George Zeisler, 1321 Main street. The consideration was \$17,500.

Something more than five acres will be included in the new sub-division, for which Mr. Zeisler has not yet selected a name. It includes the land between Seventeenth street and the Green Bay railroad right of way, from Main to King streets. It is bordered on all sides by well built up sections, and it is expected that marketing of the lots will be the signal for the invasion of builders on the hitherto idle property.

The land will be cut up into thirty lots, fifty by 125 feet. A fifty foot court will run through from Main to King streets, and a fifteen foot alley will also intersect the block. There will be three tiers of lots, all running east and west with frontage either upon the court or upon Seventeenth street, it is understood.

Surveyors were busy today laying out the lots. A plat is in process of preparation, and will be presented to the city council for approval at its next meeting.

The new sub-division is the second piece of the Hogan estate to go upon the market this year. In the middle of the summer Salzer Terrace was opened as an addition to the city, occupying the tract long known as the "Hogan Forty"—the old circus lot.

Members of the La Crosse branch of the Jovians, electrical merchants' organization, have a lot of admiring respect for this member of the order. He is head of the publicity department of the society for Electrical Development, the creator of the campaign which has made "Electrical Prosperity Week" a nation-wide success. The idea was taken up in many other cities beside La Crosse, where it was espoused with special spirit, and hundreds of thousands of dollars were spent in celebrating.

RIVER CONVENTION
IS INVITED HERE
FOR 1916 MEETING
 (Continued from Page One.)
 on the entire Mississippi. Upon the commercial side we have interested large numbers of our citizens in the possibilities of river transportation, and we now feel that the fogots are laid and that a single flame of spark will kindle the Gateway City with that enthusiasm which shall make La Crosse one of the guiding channel lights upon the greatest inland commercial waterway in the world.

Mr. President and gentlemen of the convention, we realize that the presence of this honorable body, assembled in convention in any city in the Mississippi Valley, is a force to crystallize the sentiment of that community into an active, compelling force working irresistibly for the great project that gave birth to this organization, and it is with the single purpose that we may better serve the cause, that on behalf of its people, its officials and its civic bodies, I have the great pleasure and honor to urge upon the Upper Mississippi River Improvement association this invitation to hold our 1916 annual convention in a city where beats a quickened pulse, a city that is ready, a city that believes, a city whose policy is "forward", whose watchword is "service", whose soul is hospitality—the Beautiful City of La Crosse.

Faithfully yours,
 D. W. MACWILLIE,
 President La Crosse Manufacturers' and Jobbers' Club.

GET JURY QUICKLY
IN LESCHES TRIAL

Twelve Men Are Chosen from First Panel; Trial Opens This Morning at Winona

The jury in the trial of Father L. M. Lesches, Catholic priest of Winona, who was indicted by the grand jury in September for shooting Rt. Rev. Bishop P. R. Heffron of Winona, was chosen with unusual speed in the district court at Winona yesterday afternoon. The twelve men selected to try the case were from the regular panel, a circumstance entirely unexpected. Court officials expected that considerable difficulty would be found in selecting a suitable jury.

Introduction of evidence in the case had to be postponed until 9 o'clock this morning. County Attorney Simpson was unprepared to go ahead with the case at 4 o'clock yesterday afternoon, when the selection of the jury had been completed, because he expected the jury examination would consume several days.

DREADS THOUGHT OF OLD AGE

Almost every person dreads the thought of old age, yet it ought to bring relaxation and enjoyment, because of ripened judgment and experience. Years of happiness may be added to one's life, by avoiding worry, a simple diet, light exercise and if the vitality gets low, our local druggists, Hoeschler Bros., guarantee Vinol to restore strength and vitality. It is a non-secret remedy in which are combined cod liver extract, peptonate of iron and beef peptonate, in a mild tonic wine. Feeble old people quickly regain strength and vitality by its use.

SETTLEMENT WORK
HAS INCEPTION IN
BETHANY CENTER

First Social Center Work of the City's History in Progress in Former Chapel

MISS JENNIE SCHICK IS LEADER

More Than 300 Young Folks Have Become Interested in Bethany in Few Weeks

Out at Bethany chapel, now renovated under the name of Bethany Center, is being carried on La Crosse's first experiment in settlement work. Miss Jennie Schick, with thirty-seven assistants, is conducting the social center work, and for the brief time they have been at it, with remarkable success.

Bethany Center is at Ninth and Taylor streets. It was for many years a mission chapel conducted by the First Congregational church, but the work was allowed to drop off for lack of interest. A few months ago Miss Schick saw the opportunity in the unused building, and Bethany Center was started, under the banner of the Congregational church. Miss Schick is assistant to Rex. Carlos C. Rowilson, pastor of the church.

300 Young Folks
 Fully 300 children—from toddling babes to young men and women up to twenty years of age—come under some phase or other of the crowded and varied programs which extend throughout the week. Some place is found for all either in the kindergarten classes, the work in manual training and domestic science, the indoor baseball and basketball leagues, or the Camp Fire clubs, the swimming meets, the hikes and the Sunday school classes. The young people come together with the building at their disposal for both work and play. It is the purpose of the work to provide recreation for the children in the vast amount of time that they are not in school, for charts show that the amount of time that the child spends in school is only a very small fraction of the entire time at his disposal.

The program for the entire week is crowded every day. The work is started off on Sunday at 2:30 o'clock with a Sunday school service at which about sixty are in attendance; the workers do not aim to take any of the children out of any other Sunday schools if they are in the habit of going but merely to provide a school for those that have never gone. This phase of the settlement work is in charge of Mrs. George Brettnall, wife of a normal school professor.

Not Charitable Work
 Miss Schick stated that she is attempting to free her work from its charitable aspects, for some of the people have been done too much for; a very nominal sum is charged to pay for the supplies; for instance, the little fellows who were learning how to weave rugs when a reporter called were to pay a penny for the supplies they were using for their enjoyable pastime. Weekly movies are shown at the settlement, but the extension division to be shown on Friday nights and a very nominal sum will be charged; in case the whole family buys tickets, a few extra will be thrown in; the moving pictures will provide a clean, wholesome enjoyment for the grownups and will be of an educational as well as of an entertaining variety.

On Monday nights after school there is a gym class for girls under ten years of age and about forty are enrolled.

"Because of the large number of assistants," said Miss Schick, "we can keep our classes down and give the children more individual help."

At 6:30 on Monday there is a class for intermediate boys from eleven to fifteen; after they have had the building for their hour, the class of older boys are given the floor and they usually revel in the games of indoor or basketball, outside teams being brought in now and then for competition.

Normal Students Coach
 All the physical educational work is in charge of Mr. Gustave Heinemann of the normal school and members of the "physical ed" course, who have volunteered their services.

"We could not exist without the normalists," said Miss Schick in discussing the subject, "their aid is invaluable to us although there are many others in the city who are giving us help."

There is a large number of special attractions which add immensely to the popularity of Bethany center. For instance, the D. A. R. have established a course in historical story telling on Wednesdays after school. There has been established a branch of the public library and about a hundred books have been given out. Families are given an opportunity to take out books twice a week. It is probable that a number of Bohemian books will be added to the collection. Then, too, there is a dramatic club under the direction of Mrs. Hauser and a boys' club and a literary society may be formed later. Besides these, there are two groups of camp fire girls; taken down to the Y for a swim now and then—the next opportunity will be next Saturday—one group of girls took a hike out to Doerflinger's cottage; another went on an inspection trip to the high school the other night to see the gymnasium and the swimming class and several joined; Mr. Fairchild of the normal is going to organize a group of boys to go out and look over the various factories and buildings in the city so the boys can see how things are really carried on in the world, and similar work is being continually undertaken.

RESORT KEEPER'S
WIFE IS DIVORCED

Charges Husband with Immoral Relations with Girl Inmate of Four Mile House

TESTIMONY IS SENSATIONAL

Disrobing Scene Is Recounted in Circuit Court When Injured Wife Tells Story

When Maybell Nack objected to alleged immoral relations between her husband and Miss Lillian Haynes, an inmate of the Four Miles House, operated by the defendant, C. H. Nack, she was told to "beat it," according to the story Mrs. Nack told Judge Higbee in circuit court this afternoon.

Mrs. Nack asked and was granted a divorce, and told not to remarry within the year's limit prescribed by law.

Mrs. Nack charged that several times she found Nack and the Haynes woman embracing each other. On one occasion, Mrs. Nack swore, Miss Haynes disrobed herself completely in the presence of Nack, and that when Mrs. Nack passed the door of the room in which the scene occurred, and chided her spouse, he told her, she said, "That's nothing; that isn't the first time I've seen her."

Later she said, when she continued her objections, he told her to leave, saying "that little girl is making money for me, (meaning Miss Haynes) and she's going to stay here."

CHILDRESS AGAIN
TRIED ON CHARGE
OF ATTACKING GIRL

La Crosse Resident Faces Second Case Today in Court at Fergus Falls, Minn.

For the second time George C. Childress of La Crosse, famous for his automobile escapades here, is facing a court today on an alleged assault upon Miss Irma Lemke, 16 year old girl of Wadena, Minn. The trial is under way today at Fergus Falls, Minn. W. F. Wolfe of this city is defending Childress.

Childress was convicted of the assault about a year ago, but on appeal to the supreme court was granted a new trial. He was released on bond.

FARMERS TO MEET

 Vocal solo, E. S. Sittle.
 Reading, Gertrude Moos.

Bobby—Dad, what's a bridge of sighs? Dad—Ask your mother, Robert—she gave one yesterday.—Judge.

en; something new is added each week.

This work was begun on October 11, and its results are easily discerned in the orderly classes as distinguished from the rough house play of the boys on the corners previously, a condition which they at first attempted to bring into the chapel but soon gave way to the required order, and now when Miss Schick's whistle blows, everyone stops short to listen.

Many attend conference

CHICAGO, Dec. 1.—Delegates from 38 states attended the second day of the national marketing and farm credits conference here. Crop and market experts from every section of the country talked their ideas. Conference Secretary Holman, just back from Ireland, advocated the adoption of the Irish co-operative marketing and credit system.

GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair becomes charming, wavy, lustrous and thick in few moments.

Every bit of dandruff disappears and hair stops coming out.

For 25 cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

THE SILO

BIG FIELD MEET FOR TEACHERS IS PLANNED FOR 1916

MADISON, Wis., Dec. 1.—(Special.)—The first big guns in a farm tractor campaign in Wisconsin will be fired sometime during the summer of 1916, when the first tractor demonstration ever held in the state will take place at Madison.

The committee in charge of the demonstration will consist of representatives of the college of agriculture, the Madison Chamber of Commerce, the agricultural press, the city and country newspapers of the state, and the association of manufacturers of tractors. The Society of American Agricultural Engineers, of which F. M. White, Madison, is secretary, will assist in perfecting rules and regulations under which the demonstrations will be conducted.

It is expected that from twenty-five to thirty of the leading farm tractor manufacturers will compete in this field demonstration. Tractors are, as yet, being used on but few farms in this state.

MORE BREEDERS' CLUBS ARE FORMED

The number of community breeders' associations, formed among the stockmen of the state, continues to grow. Seventeen new organizations of this nature were formed during the past year and several other communities will soon be similarly organized. The first of these associations was formed nine years ago under the direction or representatives of the College of Agriculture. There have been organized in the state to date 48 community or district Holstein associations, 36 Guernsey, 19 Jersey, one Shorthorn, one Tamworth and 10 horse breeders associations, all of which indicate the appreciation by Wisconsin farmers of the value of community effort in improving live stock.

NATIONAL G. O. P. UNION FORMED

CHICAGO, Dec. 1.—The National Republican union was formed here yesterday. G. O. P. and progressive leaders, who bolted the republican convention for the memorable rump meeting here, attended the organization gathering at the La Salle hotel. Speakers declared the union would be a "fighting force" within the party instead of without, to carry on a propaganda of party reforms.

Horace C. Stillwell, progressive leader of Indiana, was made chairman.

SYMPTOMS OF DEBILITY

People who are tired all of the time and never feel rested even after a long night in bed, who cannot regain weight and strength whose step lacks elasticity and who feel no joy in living, are debilitated. A medical examination might easily show that every organ of the body is acting normally but the pallor of the face will usually show that the blood is thin. This is the root of the trouble.

Debility is a loss of vitality, not affecting any one part of the body but the system generally. The blood goes to every part of the body and the use of a blood tonic like Dr. Williams' Pink Pills quickly tones up the system. The first sign of returning health is a better appetite, improved digestion, a quicker step, brighter eyes, better color in the cheeks, richer, red blood, reaching every organ and muscle, carries renewed health and vigor. The nerves are quieted, sleep becomes more refreshing and with persistent treatment and proper living the debilitated patient is once more enabled to enjoy life.

Two useful books, "Building Up the Blood" and "What to Eat" will be sent free on request by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

**ALL-AMERICAN TEAM OF 1915 STRONG AND
BRILLIANT IN ANY STYLE OF OFFENSIVE PLAY**
—By FIELDING H. HOST—

Football critics are united in praise
of the work of Tibbott of Princeton,
Buck of Wisconsin, Barrett of Cor-
nell, and Mahan of Harvard. These
men are all likely candidates for All-
American honors.

(Copyright, 1915 by the Central
Press Association.)
Picking a high-class All-American
team does not seem a difficult task
this year. For each position one
man stands out conspicuously —
a man who has done brilliant
work all season.
In my selection I am choos-
ing only men who play where the
three-year rule is followed.
It does not seem to me to be fair
to include men who have had a
chance to play in their fresh-
man year.
My team would be made
up as follows:
CENTER—Cool, of Cornell. He
is a wonderfully heady player, ex-
ceptionally fine on defensive work
and in diagnosing plays. He has just
finished his third year, stands about
six feet, and weighs 165.
LEFT GUARD—Schlacher, of
Syracuse. Height, six feet; weight,

Horne Has His Men Out for
First Workout with
Few Veterans in
Suit

Football has succumbed to Fath-
er Time, with La Crosse at the head
of the list of state high school teams.
Basketball reigns in its stead.
The first meeting of the year of
basket shooters was held last night
after school. Nearly 80 students,
who expect to try out for either
class or school teams were present.
Coach Horne read the rules, espe-
cially emphasizing the new ones of
which there are seven.
At the close of the meeting, 25
men, who intended to try for the first
squad, on which Horne keeps fifteen,
remained in the room. Coaches
Horne and Puckett will have charge
of the men.
The first practice will be held Mon-
day at 3:30. Last year Captain Zeisler
led a team which had been made
almost entire from the class teams
of the previous year, through a very
successful season. The veterans re-
maining are Captain Kelly, who will
not be able to play until February
because of scholastic difficulties, Kul-
cinski, a good guard, Grenzner and
R. Zeisler. Second team men are
Roellig, Schall and Layman.
To date, only Madison and Tom-
ah have been heard from and no de-
finite dates have been set for these
games. Baraboo, Sparta, Viroqua
and possibly Winona and Eau Claire
will also be played. Efforts will be
made, it is reported, to arrange a
game with St. Paul Central.
Class basketball will not be started
until after the holidays. A sched-
ule for these games is in the pro-
cess of formation.

Volley ball today holds attention
at the Young Men's Christian asso-
ciation. The first games in the busi-
ness men's league were to be played
this afternoon. Captains of the six
teams of the league were to have been
elected at play today.
The teams:
Team No. 1—McCormick, Pieper,
Thwing, Walker, Stacey, Nurse,
Trane, Elbertson, Moncrieff, Ne-
sheim.
Team No. 2—Reay, Benton,
Schweizer, Fisher, Gatterdam, Iden,

BASKETBALL WORK
STARTS AT NORMAL
BIG SQUAD IS OUT

Twenty Men Including Six
of Last Year's Men Re-
port for the First
Workout

SCHEDULE IS OPENED SOON

Campion College Is Played
Dec. 13 as First Game
on Biggest Card
in History

The first real basketball practice
of the season was held in the normal
gymnasium last night after school
following Dr. Sputh's announcement
in the morning that every man who
is in earnest about the game and
willing to work should report
promptly at 4:15. About twenty men
heeded the call by making their ap-
pearance and were given a taste of
the game by actual contests. Al-
though the squad was not exception-
ally large, it was, as a whole, com-
posed of very good material.
Among the candidates were six
men from last year's squad, viz.:
Captain Weiss, Meiner, Strum,
Wachter, Jackson and Grounds, to-
gether with a large amount of ma-
terial whose quality is almost entire-
ly unknown. Eight men will be car-
ried on the long tour of four states,
so there is an opportunity for a large
amount of competition. Dr. Sputh
is not certain about the old men and
there is a possibility that some dark
horses may step in and take their
places. It all remains to be seen in
the course of the next week. The
coach has but eleven days, exclusive
of Sundays in which to drill his men
into trim before the first game of the
trip and of the long schedule will be
played with Campion college at
Prairie du Chien the night of Decem-
ber 13.
Coach Sputh is silent concerning
this year's team. It is sufficient to
say, however, that he has the best
foundation on which to build a team
than has ever been obtained before
in the history of the school. With
this strong basic force and the un-
limited development that should come
to the team on its practice trip play-
ing with the best teams in the cen-
tral west, the normal quintet should
be in excellent condition for the reg-
ular conference schedule which be-
gins with the new year. Hopes for
another state championship are rife.

WAGE INCREASE PROMISED

CINCINNATI, Ohio, Dec. 1.—An agreement will be reached whereby the Big Four will grant wage increases totalling about \$50,000 a year to its telegraphers, H. A. Worcester, general manager, predicted today following a conference with the telegraphers' officials. This would be an increase of about 5 per cent, or \$43 a year to every one of the roads 900 to 1,000 telegraphers.

Dance to the lilting tunes of the New Edison

The New Edison Diamond Disc Phonograph is a source of never-ending joy in the home. Its melody tone, full in volume, makes it delightful for dancing. Just throw back the rug, start one of the many tuneful, lilting, popular melodies which the great library of Edison records contains, and dance to its catchy measures. The New Edison brightens the home, an ever-present means of recreation. You will never grow tired of the New Edison, because it is distinctly a real musical instrument. No needles to change.

NORMAL CHRISTMAS HOLIDAY VACATION DATE IS CHANGED

An important change to the normal students has been made in the time of their Christmas vacation. The announcement came as a complete surprise Monday. Instead of extending from December 24 to January 10, the recess will begin at 4:10, December 17, and will continue until school is resumed on Monday morning, January 3. This gives the students two whole weeks and a week end of freedom. Under the previous schedule, eighteen days would have been obtained.

The new vacation will allow the normalites a free week before Christmas and one following, together with two free days in the new year. This change will enable many of the students to work during the Christmas rush, will give the out-of-town students plenty of time to get home before the holidays and will no doubt prove much more popular than the first schedule which was severely criticized.

The schedule will also be of great benefit to the basketball team. They play the first game of their trip on the thirteenth and would have missed two weeks of school; this is now cut down to a week exclusive of the regular vacation. The basketball trip ends on December 23 at Richmond, Indiana.

HAS SCHEME FOR BELGIAN REFUGEES

NEW YORK, Dec. 1.—Buy-a-yard-of-cloth day for the benefit of the Belgian and French refugees was advocated today by Edward Drummond Libbey of Toledo, president of the Ohio committee for the relief of European war sufferers. Libbey said he had conferred with Brand Whitlock, American minister to Belgium, and that Whitlock had approved the plan.

Women and children in Belgium

and France are facing the winter wearing thin cotton clothing and remnants of shoes, Libbey said.

Foreign Markets

New York Stocks

NEW YORK, Dec. 1.—Only slight price changes occurred at the opening of the stock market today. There was some bullish activity in high priced industrials and Cuban Sugar and Southern Porto Rico sugar made new high records. U. S. Steel opened up 1/4 but later eased off.

Strength developed in the market early in the day. U. S. Rubber, Goodrich and Industrial Alcohol led the advance. Toward the end of the first hour prices eased off and during the greater part of the second hour the market was at a standstill. Traders renewed their selling at about noon causing further declines. There was little trading in the early afternoon. Stocks were easier and were permitted to drift lower. The market closed dull.

ROOMS ARE ROBBED OF FIFTY DOLLARS BY SNEAK-THIEF

Herman Schauland Reports Burglary of Home; Rings Are Untouched by Intruder

Police today are looking for a sneak thief who yesterday afternoon robbed the rooms of Herman Schauland, proprietor of the Home restaurant, and got away with something more than \$50 in cash. Valuable rings and jewelry were not touched by the thief.

The robbery occurred, it is believed, around the noon-hour. It was discovered by Mrs. Schauland about 2 o'clock, when she returned to the rooms on the second floor at 118 South Fifth street, above the restaurant.

Mrs. Schauland discovered her dresser drawer unlocked, the key used by the thief being still in the lock. A small nickel plated bank, containing nickels, dimes and pennies, amounting to about \$5, had disappeared. With it were gone two pocket books containing close to \$50 in gold and paper, and a leather pouch in which were forty-eight buffalo nickels.

MADISON BOY GAVE UP PRIESTHOOD TO BECOME INVENTOR

MADISON, Wis., Dec. 1.—The deal between Mathew and William Kurth of Waukegan and Andrew Kurth of this city, whereby the International Harvester company is to pay them \$500,000 for the patent rights on a combined grain binder and shocker and a corn shocker attachment to a corn binder, has been definitely closed. The contract has been signed and the International company has started to manufacture the machines.

Already 3,000 of them have been produced and, according to an official statement by officials of the company to Mathew Kurth, millions of dollars' worth of binders now on the market will be recalled to be substituted by the Kurth machine. The demonstration of the machine was made by the Kurth brothers before the harvester engineers at Joliet, Ill., some months ago and a price set and accepted. It is expected that a check in full payment will be forwarded by the company within a day or two.

The inventive genius of the Kurth family is Mathew, aged 23. This boy, who up to two years ago intended to become a priest and spent nearly three years at the St. Francis seminary at Milwaukee. He became convinced, however, that his field was in agriculture and returned to Waukegan. His brother William, who

BEST LIVER AND BOWEL LAXATIVE FOR FAMILY USE

"Cascarets" regulate women, men and children without injury.

Take when bilious, head-achy, for colds, bad breath, sour stomach.

Instead of nasty, harsh pills, salts, castor oil or dangerous calomel, why don't you keep Cascarets handy in your home? Cascarets act on the liver and thirty feet of bowels so gently you don't realize you have taken a cathartic, but they act thoroughly and can be depended upon when a good liver and bowel cleansing is necessary—they move the bile and poison from the bowels without griping and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine, the headache, biliousness, bad breath, coated tongue, sour stomach, constipation, or bad cold disappears. Mothers should give cross, sick, feverish or bilious children a whole Cascaret any time—they are harmless and safe for the little folks.

EVIDENCE HEARD

ST. LOUIS, Mo., Dec. 1.—Evidence on the promised increased freight rates on packing house products and fresh meats was heard by a representative of the interstate commerce commission in the western rate case hearing here today.

ODD FELLOWS TO MEET

OCONOMOWOC, Wis., Dec. 1.—The thirty-eighth district organization, I. O. O. F., will meet at Hartland on Tuesday. This organization is made up of the Odd Fellow lodges of Waukesha, Pewaukee, Hartland, Oconomowoc and Watertown.

WRECK CLOSSES TRAFFIC

PHILADELPHIA, Pa., Dec. 1.—Traffic between this city and New York on the main line of the Pennsylvania railroad is demoralized, the result of a rear end collision early today between two freight trains near Cornwell's Station, Pennsylvania. Thirty freight cars were demolished and the debris is piled five feet deep, in some instances completely blocking traffic on five tracks.

NOTED LAWYER DEAD

NEW YORK, Dec. 1.—Paul Fuller, noted international lawyer who was sent to Mexico by President Wilson to investigate the Carranza government died suddenly early today at his apartment at the Hotel Van Rensselaer.

Prudence of the Parsonage is clean and wholesome throughout, and with a choice vein of humor, is a most readable book.
